Samuel Kaski

Professor, Computer Science, FCAI (Finnish Center for Artificial Intelligence)

Samuel Kaski is a professor of Computer Science at Aalto University and professor of AI in The University of Manchester. He leads the Finnish Center for Artificial Intelligence FCAI, ELLIS Unit Helsinki and the ELISE EU Network of AI Excellence Centres. He received the Turing AI World-Leading Researcher Fellowship in 2021. His field is probabilistic machine learning, with applications in new kinds of collaborative AI-assistants able to work well with humans in modelling, design and decision tasks. Application domains include computational biology and medicine, drug design, and user modelling.

Prof. Kaski is an ELLIS Fellow, UKRI Turing AI Fellow, and Turing Fellow of the Alan Turing Institute.
